Why this project

Four villas, one hillside, one build standard — a small, controllable asset with a clearly documented legal structure.

01

Scarcity by design

Only four detached villas on the hillside. No shared walls, no phased mega-development — each buyer holds one of four addresses.

02

Rental-ready product

3 bedrooms, 4 bathrooms, 4 × 8 m private pool and a European kitchen — the configuration short-stay guests search for on Samui.

03

Documented tenure

30-year renewable lease, construction permit in the buyer's name, and a full 30-year payment schedule fixed in the contract.
